

PAOLO VODOPIVIC
*President and Area Director,
Latin America and General Manager
HTH Water International
Arch Chemicals, Inc.*

Paolo Vodopivic is President and Area Director, Latin America and General Manager, HTH Water Products International of Arch Chemicals, Inc. (NYSE: ARJ), a global Biocides company with annual sales of over \$1 billion. In these functions, Paolo oversees all of Arch's activities in Latin America.

Mr. Vodopivic joined Olin Brazil in 1986 as President and General Manager. He coordinated the creation of the Nordesclor water treatment joint venture with Votorantim and consolidated all Brazilian activities under one site in Salto, Brazil. In 1994 he was appointed Latin American Area Director and actively participated in the acquisition and turnaround of the Company's Performance Urethanes business (Etoxyl) in Venezuela. He was involved in 2000 in the reorganization of HTH Water Products' activities in Europe, and in 2002 he was appointed General Manager, HTH Water Products International. He later played a leading role in Arch's full acquisition of its former water treatment joint ventures in South Africa (Aquachlor) and Brazil (Nordesclor).

Prior to joining Arch, he was the General Manager of AtoFina, Brazil (currently Arkema).

Mr. Vodopivic received a degree in chemical engineering in 1968 from the National School of Chemistry of the University of Brazil (Rio de Janeiro) and a Master of Science degree in 1970 from Princeton University. He also completed the Advanced Executive Program at the Kellogg School of Management in 1992.

Mr. Vodopivic is located at Arch Chemicals' office in São Paulo, Brazil.
