## The Benefits Are Clear

# The Pulsar® 4 System

Specifically designed for large pools and simplified operation and maintenance, the principal benefit of using the Pulsar® 4 System for big pools is easy to see... a remarkable difference in pool water clarity, color and sparkle. Using Pulsar eliminates the hazards of chlorine gas and liquid bleach, protects bathers, plaster and equipment and reduces chloramine odors dramatically. Easy to use and maintain, the Pulsar® 4 chlorinates, removes organics and metals, boosts hardness and shock treats... all in one simple process. With balanced pool water, the Pulsar® 4 System will give you cleaner, clearer water, less hassle and longer pool and equipment life.

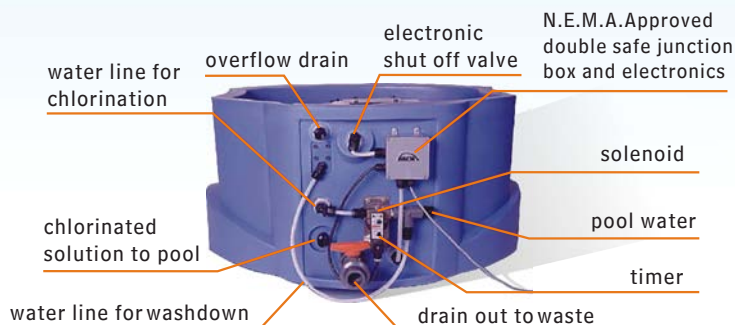

- Feeds up to 164kg of available chlorine per day
- Optimal chlorination and evacuation
- Operates as an independent loop from the pool system
- Complete system includes:
  - Pulsar® 4 Chlorinator
  - Pulsar 0.75Kw Recirculation Pump
  - 1.5" Venturi
  - Connections for standard installation

## The Pulsar® 4 Chlorinator Simple, Rugged, Easy to Use and Maintain

The NSF Listed Pulsar® 4 Chlorinator provides consistent, dependable pool water chlorination and is capable of very high chlorination rates using a unique spray concept that enhances your pool's filtration system and helps make your pool water sparkle. The Pulsar 4 employs constant washdown feature and has a ramped bottom with a well agitator to aid complete evacuation. The Pulsar 4 is designed for easy access to the internal components for simplified maintenance. A 0.75Kw pump provides suction through the venturi for optimal evacuation of the chlorinator.
