

# Bubbling Over

NEVER BEFORE HAS IT BEEN EASIER TO MAINTAIN THE BENEFITS OF A SOOTHING, SPARKLING CLEAN SPA.

**SIMPLE PLEASURES ARE SO NAMED BECAUSE DELIGHT IS FOUND IN THE MOST UNEXPECTED PLACES.** Enjoying your spa experience should be no different. With easy-to-use products such as the **BaquaSpa**<sup>®</sup> system and the **Brilliance**<sup>®</sup> for Spas system, hot tub maintenance is a simple, hassle-free process. And to further enhance the spa experience, **being**<sup>®</sup> Aromatherapy is the ideal way to find complete repose. The chlorine-free, bromine-free **BaquaSpa** three-part system provides long-lasting

protection against bacteria to keep your spa clean and clear throughout the season. This easy-to-use system features a stable, long-lasting formula that increases the duration of high-quality, healthy water. The BaquaSpa system also meets EPA requirements for registration as a spa sanitizer.

## CLEAR AND SIMPLE

To get started, fill your spa and take a water sample in a clean container to an authorized BaquaSpa dealer for analysis. After following your dealer's water balance recommendations, add BaquaSpa Waterline Control to prevent waterline deposits on the shell. Next,

**Both the BaquaSpa and Brilliance for Spas systems keep your hot water retreat in peak condition.**

add BaquaSpa Oxidizer, which oxidizes organic compounds and keeps water sparkling clear. Next, add BaquaSpa Sanitizer with Stain & Scale Control. This three-part system includes all the products necessary to make spa care a simple process.

To make sure your spa stays pristine, just follow a few hassle-free steps. Check your spa water's balance using BaquaSpa Test Strips and adjust if necessary. Maintain the BaquaSpa Sanitizer with Stain & Scale Control level between 30ppm and 50ppm for continuous protection from bacteria.

## BRILLIANTLY EASY

If you prefer a bromine sanitization system, consider the 100-percent chlorine-free Brilliance for Spas system, which includes a full product line to satisfy all your spa care needs. With Brilliance for Spas Sanitizer, you'll experience less odor and eye and skin irritation. This effective sanitizer won't upset the delicate chemistry balance of your spa water and leaves your spa with a brilliant shine. After you fill your spa, take a water sample to your authorized Brilliance for Spas dealer and follow their recommendations to achieve a perfectly balanced spa. Add Brilliance Metal & Scale Control, Brilliance Start-Up, Brilliance Oxidizer and Brilliance Sanitizer. Next, test your water balance with a Brilliance Test Strip, make any necessary adjustments and begin enjoying your spa. To make spa maintenance even easier, try the Brilliance for Spas Mermaid Sanitizer Dispenser. Just add the appropriate amount of sanitizer into the dis-

penser and set the level according to your spa size.

Both the BaquaSpa and Brilliance for Spas systems include a variety of support products to help you maintain your spa throughout the year, including Foam Dispenser, Filter Cleaner and Water Clarifier. Taking relaxation to another level, some of the products also include Aqua Enhancers, additives formulated to condition spa water and soothe skin. The BaquaSpa Foam Dispenser and Brilliance Foam Dispenser include vitamin E while controlling foam accumulation. BaquaSpa and Brilliance Water Clarifier include Bioplex NMF to condition and soften spa water while keeping it crystal clear. BaquaSpa and Brilliance pH Increaser and Decreaser also include mineral salts and a fresh scent. Aqua Enhancers can also be found in Brilliance for Spas Oxidizer, which includes mineral salts, and Brilliance for Spas Metal & Scale Control, which contains soy protein.

## SOAK IT UP

Once you've taken the necessary steps to ensure your spa is in great condition, why not take time to treat yourself as well? Using the power of aromatherapy, being Aromatherapy products satisfy the senses and are the perfect addition to the spa experience. A special blend of herbs and fragrant oils, being Aromatherapy products will soothe the body, mind and spirit. From lavender and geranium to green tea

Beyond the spa, consider being body mist. Whether you need to reflect, release, enlighten, awaken or uplift, being has the perfect botanical blend for the mood. The body mist is a light, spray-on lotion for use after your relaxing spa experience. Then carry the benefits of being inside with being aromatherapy candles, available in the same five scents.

By following the simple steps of the BaquaSpa and Brilliance systems, your
