Responsibility of Owner

Owner's failure to complete any of the following items shall act as a waiver of any rights Owner may have against Arch Wood Protection, Inc. under this limited warranty and this limited warranty shall be void.

a. Installation/Maintenance

1. Complete soil treatment with an EPA approved termiticide to label recommendations prior to construction completed by a certified pest control operator licensed to perform such work in the state in which property is located. Soil treatment must meet state and local building code requirements for treatment application. Soil treatments must cover foundations, around postholes, under floors of slab construction, and around the perimeter of slabs and foundations.

2. Product(s) must be installed in compliance with applicable building codes, and the dwelling must be inspected and certified by a local building code official.
3. All Product(s) must be used only in weather-protected above-ground applications and continuously protected from liquid water.

6. This Product(s) cannot be used in an exterior exposure or in an interior space that creates an exterior environment. Direct Product(s) contact with the ground or in any application which allows for the accumulation of free water or repetitive wetting condition at any time during the limited warranty period shall render this limited warranty void.

3. Upon reasonable notice, the Owner must allow Arch Wood Protection, Inc. agents to enter the property and building on which the Product(s) is installed to inspect such Product(s).
