

Safety, Health and Environmental and Responsible Care Policy Statement

The Management and staff of Arch Wood Protection (SA) Pty Ltd are committed to ensuring that all manufacturing and distribution activities are carried out in a responsible manner and controlled in order to preserve the safety, health and environment of our employees, service providers, visitors and the public.

To achieve our objectives the company will:

- Comply with all applicable national and regional safety, health and environmental laws, requirements and regulations relating to our manufacturing, product development and distribution activities.
- Meet all of our Corporate, Stakeholder, Community and Staff requirements.
- Develop, implement and maintain an environmental management system that meets the requirements of ISO14001.
- Implement and maintain a Responsible Care Management System.
- Maintain effective safety, health and environmental management schemes in all of our manufacturing and distribution activities by:
 - Continuous Improvement, reduction and prevention of environmental pollution, work related illnesses, accidents and incidents.
 - Conservation and minimisation of energy, material usage and the production of waste (Conservation of energy and natural resources).
 - Effective and responsible waste management and disposal.
 - Maintaining a high awareness of safety, health, environmental and responsible care issues in the workforce.
 - Monitor the effectiveness and continuous improvement of safety, health, environmental and Responsible care management systems through regular audits and management reviews.
 - Communication and openness to our employees, clients and the community in our safety, health and environmental program
 - through effective communication, publications and training procedures and
 - the publishing of the Safety, Health and Environmental and Responsible Care Policy Statements on the RC boards in the office and factory and on the company website.
